PROFESSIONAL SUMMARY

Detail-oriented and execution-focused application developer and MCA student with hands-on experience building interactive web features and integrating external APIs. Well-versed in Python, JavaScript, and database management, with practical implementation experience utilizing the Google Gemini API to build conversational features. Possesses a strong mathematical foundation and analytical mindset, looking to leverage technical skills in application development, data automation, and script integration at the intersection of PropTech and business operations.

TECHNICAL SKILLS

- **API & Integration:** Google Gemini API, RESTful APIs, OpenWeatherMap API
- **Programming & Databases:** Python, JavaScript, SQL (MySQL), Data Modeling Concepts
- **Web Development:** React (Vite), Flask, Django, Tailwind CSS, HTML/CSS
- **Tools & Deployment:** Excel Data Automation, Git, GitHub, GitHub Pages
- **Soft Skills:** Analytical Thinking, Problem Solving, Team Collaboration, Technical Communication

ACADEMIC PROJECTS

Gemini Chatbot Application

React (Vite), Flask, Google Gemini API

- Developed a real-time conversational interface by integrating the Google Gemini API to handle text prompts and fetch automated responses securely.
- Implemented session-based chat history features and dynamic UI updates, demonstrating the ability to structure and manage interactive client-server data flows.
- Engineered backend API routes using Flask to process incoming requests and map responses cleanly to the user interface.

Weather Forecast & Analytics Web Application

React, JavaScript, OpenWeatherMap API

- Built a responsive weather application dashboard featuring automated data fetching to capture, process, and display live environmental data points.
- Designed a clean, single-page interface with real-time UI rendering, applying precise data filtering logic to convert raw JSON data payloads into organized visual summaries.

Personal Portfolio & Web Showcase

React, Tailwind CSS, Git Automation

- Designed and launched a modern, animated web application to present code repositories, projects, and execution capabilities efficiently.
- Managed end-to-end site delivery and operational setup using GitHub Pages deployment pipelines.

EDUCATION

Master of Computer Applications (MCA)	2025 – 2027
Galgotias College of Engineering and Technology, Greater Noida, UP	
Bachelor of Arts (B.A.)	2022 – 2025
Pataliputra University, Patna, Bihar	
Class XII (Physics, Chemistry, Mathematics)	2022
BSEB Board, Bihar
